	Overall: $515,532 across all acounts		
	Income continues to be driven primarily by junior and seasonal competitions, supported by sponsorship and tournament activity. Major expenditure categories remain wages, referees, ground fees, tournament expenses and equipment.		
	The 2025 surplus further strengthens the Association's reserves and positions the organisation well for future growth and ongoing facility and competition commitments. The significant reduction in Cost of Sales over the three-year period reflects the outsourcing of canteen operations. The Association continues to receive a percentage of canteen revenue under this arrangement, which is reflected in Trading Income.
